INVACARE® TOP END® Recreation Handcycles

Safety, comfort and performance are the distinguishing characteristics of all our handcycles. The *Invacare Top End Exceleator* and *Invacare Top End XLT Series* are ideal recreational models. Even children are catered for with the *Invacare Top End Li'l Exceleator* and *XLT Jr.*

Featuring a comfortable recumbent design and 27 external gears which allow you to adjust the slightest changes encountered on the road (including variations of wind, inclines and descents), the *Invacare Top End XLT Pro* is the perfect touring and long-distance riding handcycle.

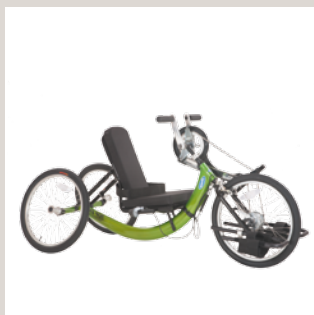

The *Invacare Top End XLT* and *XLT Jr.* models are designed with the recreational handcycling enthusiast in mind. Equipped with low maintenance 7 speed hub with reverse hands-on braking, the *Top End XLT* will easily handle most terrains, whether you're simply riding around town or taking a spin in the country.

For a great way to exercise, cross train or simply have fun, the *Top End Exceleator* will help sports enthusiasts 'excel' at all that they do. Designed to accommodate taller or larger frames, this upright and extremely manoeuvrable three-wheel handcycle is an 'excel-lent' choice!

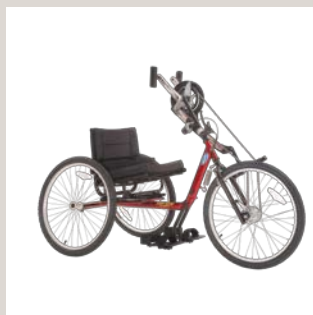

OPTIONS AND FEATURES
